

# ViviRooms

**ViviRooms Ecomm Private Limited**

- ❖ Position - Data Security Specialist
- ❖ Experience - 6-7 years
- ❖ Compensation - Best in industry
- ❖ Open Positions - 1
- ❖ Location - Gurugram

As the Data Security Specialist, you will be responsible for safeguarding our valuable data assets and ensuring the highest level of data protection throughout our platform. Your expertise will be instrumental in mitigating potential security risks and maintaining the confidentiality, integrity, and availability of our data.

## **Eligibility Requirements**

- Bachelor's degree in Computer Science, Information Security, or a related field.
- Proven experience as a Data Security Specialist or a related role, with a focus on web and mobile app security.
- Extensive knowledge of security frameworks like OWASP and SANS 25, and experience applying them in real-world scenarios.
- Proficiency in using security assessment tools such as Burp Suite, nmap, Wireshark, Metasploit, MobSF, APK tool, and Jadx.
- Strong programming skills in Python, enabling the candidate to develop and automate security-related scripts and tools.
- In-depth understanding of web application architecture, mobile app development, and network protocols.
- Familiarity with database security, especially in SQL databases, and expertise in securing sensitive data.
- Knowledge of industry standards and regulations related to data security, privacy, and compliance.
- Excellent problem-solving and analytical skills to identify and address security risks effectively.
- Strong communication and collaboration skills to work effectively with cross-functional teams and stakeholders.
- Relevant security certifications, such as Certified Ethical Hacker (CEH) or Certified Information Systems Security Professional (CISSP), are a plus.

## **Job Description & Responsibilities**

- Conducting comprehensive web, mobile app, and network vulnerability assessments and penetration tests (VAPT) to identify potential security weaknesses and risks.
- Utilizing industry-standard security frameworks, such as OWASP (Open Web Application Security Project) and SANS 25 (Top 25 Software Errors), to assess and mitigate security vulnerabilities.
- Performing thorough security assessments of web applications and servers using tools like Burp Suite, nmap, Wireshark, and Metasploit.
- Conducting mobile app security assessments using tools like MobSF (Mobile Security Framework), APK tool, and Jadx to analyze and address security issues.
- Collaborating with the development team to implement secure coding practices, ensuring that all code adheres to security best practices.

# ViviRooms

**ViviRooms Ecomm Private Limited**

- Analyzing and addressing database security concerns, focusing on SQL databases, to protect sensitive information and prevent unauthorized access.
- Staying up-to-date with the latest security threats, attack vectors, and industry best practices to continuously enhance the organization's security measures.
- Monitoring network traffic and system logs to detect and respond to potential security incidents in a timely manner.
- Developing and maintaining security policies, procedures, and guidelines to foster a culture of security awareness among team members.
- Providing security training and awareness programs to educate employees on data security best practices.
- Collaborating with cross-functional teams to ensure compliance with relevant security standards and regulations.
- Conducting periodic security audits and risk assessments to evaluate the effectiveness of security controls and make recommendations for improvement.
- Actively participating in incident response and resolution, including root cause analysis and implementing corrective actions.

## **About us**

We are a women-led e-commerce platform, offering a concept that will revolutionize the online shopping experience. With an estimated launch in 2023, we will provide customers a chance to shop for clothes in a never before seen way. Phase one will focus on launch in the Indian market.
