

ViviRooms

ViviRooms Ecomm Private Limited

- ❖ Position - Senior Unity Developer
- ❖ Experience - 5-8 years
- ❖ Compensation - Best in industry
- ❖ Open Positions - 2
- ❖ Location - Gurugram

We are seeking an experienced and dynamic Unity Developer to join our team. As a developer, you will play a pivotal role in shaping the future of emerging technologies by building AR and VR solutions that cater to our customers' requirements for cross-platform support on Android, iOS, and Windows. Your main responsibility will be to utilize your expertise in C# and Unity C# to customize applications and develop innovative solutions that meet our clients' needs.

Eligibility Requirements

- B.E/B.Tech or another relevant field
- Knowledge of Unity native implementation with Android
- Knowledge of Unity SDK libraries integration with Android
- Experience with game physics and particle systems
- Strong client orientation and ability to establish and maintain effective work relationships at all levels.
- Excellent leadership, decision making and communications skills.
- Strong experience in Unity
- Proven ability to architect and design large projects and complicated systems
- Excellent communication skills, particularly in discussing timelines, design concerns, and providing helpful feedback to team members
- Proficiency in 3D Max, Maya, Zbrush, Substance Painter, Keyshot, Marvelous Designer, Premiere Pro, Unreal Basics would be an added advantage.

Job Description & Responsibilities

- Prototyping and building next generation AR/VR products.
- Working with pre-created images and 3D models to create photorealistic experiences.
- Working with product managers and designers to build impactful, easy to understand prototypes.
- Participating in internal concepting and ideation sessions and bring a unique perspective to the discussion.
- Designing, building, and maintaining efficient, reusable, and reliable code
- Defining, architecting, & developing core engine components in Unity and C#.

ViviRooms

ViviRooms Ecomm Private Limited

- Developing, innovating & integrating new technologies and tools (working with content teams).
- Scoping out tasks and systems, looking for future improvements.
- Mentoring other engineers in core language and technology struggles.
- Writing coherent, organized code and being comfortable working on a complicated code-base.

About us

We are a women-led e-commerce platform, offering a concept that will revolutionise the online shopping experience. With an estimated launch in 2023, we will provide customers a chance to shop for clothes in a never before seen way. Phase one will focus on launch in the Indian market.

ViviRooms is part of London based Euromax Capital (www.euromaxcapital.com) among which includes the most innovative & promising Artificial Intelligence enabled Biometric Software Platform, Products & Solutions designing organizations Biocube Technologies (www.biocube.ai).
